MAIN COURSE LOCATION:

DoubleTree by Hilton Hotel Chicago - Magnificent Mile

FIRST ANNUAL
Chicago Symposium
ON TRAUMA

FEATURING:

Interdisciplinary Skills Pre-Course

Tuesday, May 5

Focused Trauma Nursing Breakouts

Wednesday/Thursday, May 6-7

Trauma Xtreme - Advanced Operative Skills Post-Course

Friday, May 8

COURSE DESCRIPTION:

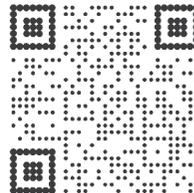

This activity equips trauma nurses with advanced nursing concepts and practical, evidence-based strategies for caring for patients with penetrating injuries. Through targeted didactic content and engaging expert panels, participants will deepen advanced trauma assessment and clinical reasoning skills, recognize complex injury patterns, and apply rapid, high-level decision-making in high-acuity civilian and battlefield trauma settings. Dedicated nursing breakouts emphasize advanced practice and specialty nursing roles and include a live, simulation-based walkthrough of emergency department thoracotomy, in-depth case studies examining both successful and unsuccessful outcomes, and a focused session on flight medicine to enhance continuity of care across transport environments.

TARGET AUDIENCE:

This conference is designed for academic, military and community trauma surgeons as well as other as other surgical sub-specialists, intensivists, ER physicians, nurses, PA's, technologists and healthcare professionals who care for critically-ill trauma patients.
